

Spatial corrector KT-2

Quick user guide

2 MAIN SCREEN

3 OPERATING STATUS

- 1 Operation of control loop
- 2 Fast heating of tap water / Fail-safe anti-freeze mode is active
- 3 Child safety lock is active
- 4 Operational setting for control loop
- 5 Maintenance of heat pump required
- 6 Multiple alarms / errors active
- 7 Circulation pump of control loop is currently active

4 SETTING TARGET ROOM TEMPERATURE

- 1 The room temperature currently set is displayed when the "Up" or "Down" arrow is pressed. The temperature is highlighted with an orange border.
- 2 By pressing the arrow again, target room temperature can be set. Setting is confirmed by pressing the OK icon, or is automatically confirmed after 8 seconds.

5 MENU

- 1 Operational setting for control loop
- 2 Fast heating of tap water
- 3 Temperature setting for tap water
- 4 Display brightness
**Brightness is automatically adjusted depending on surrounding light.*
- 5 Night mode

i Contents and display of menus depend on model and configuration of heat pump.

Setting night mode:

- The display automatically dims in moderate light
- The display automatically dims in low light.
- The display automatically dims in darkness.
- Disable night mode. The display is always on.

6 CHILD SAFETY LOCK

The function is activated by pressing and holding buttons OK and simultaneously for 2 seconds. The icon is displayed in the status bar to indicate an active child safety lock function. Button operation is disabled.

The function is deactivated by pressing and holding buttons OK and for 2 seconds simultaneously again. The function icon in status bar disappears and normal button operation is restored.

Child safety lock function prevents unauthorized access to the module. The function can also be used to prevent unwanted button triggering while front panel cleaning.

6 QUICK MENU

"Quick menu" can be accessed by pressing the button. By pressing the button, we navigate between System view and Weather forecast menus. Weather can be viewed for the next two days. By pressing the OK button, we return to the Main menu.

i **Condition:** Weather is only shown if the heat pump is connected to the Internet and the location of the heat pump is set at the web interface Cloud.KRONOTERM.

Labels for the weather forecast menu:

- Weather symbol
- Highest (day-time) temperature forecast
- Air humidity
- Day of the week
- Lowest (night-time) temperature forecast

Labels for the heat pump and water temperature menu:

- Heat pump current operation symbol
- Water temperature in the buffer tank
- Outside air temperature
- Time
- Temperature of tap water
